

Communication SOLUTIONS *specifically for*

Education

When it comes to School Communications...

No Oregon Company has
Been in the **Classroom**
Longer than **Smeed**

At Smeed Communication Services, we recognize the importance of keeping your staff and students connected, enhancing both their safety and learning experience.

Since 1946, we've helped schools customize communication, media, and security systems to meet their specific needs.

As one of the region's largest single-source suppliers, we have access to the most advanced communications systems. We also have the training necessary to design and service the systems we provide.

With two locations, The Smeed staff can respond quickly to a school's communication needs.

Smeed Communication Service - Helping Schools with Sound Decisions Since 1946.

For over 60 years, Smeed Communication Services has been making the announcements, ringing the bells, providing the time and amplifying the game.

Today, we continue to offer the latest in communications, sound, media and security technology.

Smeed Communication Services designs custom systems to meet the needs of any educational facility; old or new, large or small, from K-PhD.

On the reverse you will find a partial listing of the products and systems we offer the educational community. If you are considering installing, or updating your communications or security systems, our educational specialist would be happy to consult with you. Call or e-mail us with your interests.

Smeed Communication Services is proud to represent fine manufacturers like; Rauland, NEC, Bose, Yamaha, Shure, Tascam, and many others.

Connecting Your School with Tomorrow's Technology

Communication SOLUTIONS *specifically for* Education

Internal Communication Systems

Since 1967, Smeed Communication Services has been a Rauland Borg distributor. Rauland Borg is the leader in school communication and signaling systems, offering everything from simple desktop intercom systems to IP based telephone/intercom/clock systems. There is more Rauland equipment in Oregon schools than any other single brand of equipment!

Telephone/Voicemail Systems

We are proud to be a longstanding NEC telephone dealership, having installed the very first privately owned PBX system in Lane County! NEC offers telephone systems ranging from a basic office telephone system to the most advanced networked multi-location IP based phone systems.

Master Clock / Bell Systems

Smeed offers clock and bell systems from several manufacturers, ranging from simple hardwired electronically controlled clock/buzzer single tone systems to IP and wireless solutions with multiple bell tones. We can design a system for any size building from 1 room to 1000.

Media Retrieval / Streaming Video

Our specialists install Rauland Borg Media Retrieval and Streaming video systems. Offering both local and district-wide solutions, Rauland features some of the most advanced broadband and IP based systems available.

Multi-Media Presentation Systems

Bring your classroom to life! Give teachers the ability to do Power Point presentations with streaming video embedded. Smeed can design and install multi-media systems with flat screen or projection video and stereo or surround-sound audio. We can handle all aspects of your project including design, installation and maintenance.

Speech Reinforcement, Hearing Impairment and ESL audio channel systems

Smeed's speech reinforcement systems allow hearing-impaired students to function more effectively in the classroom. Smeed-installed ESL audio channels allow you to transmit in a second language to parents and family members during a presentation. Smeed has solutions for all these needs!

Sound Systems

Smeed designs and installs sound systems for gyms, multi-use rooms, theaters and athletic fields using components from companies like Bose, Yamaha, KDM and many others.

Security Systems, Door Access Systems, Closed Circuit Television

Need a security system, door access control system or CCTV system? Smeed can design, install and maintain systems designed specifically for your facility. Whether you want traditional CCTV or video over IP we have the equipment and expertise to fit your needs!
