

Communication SOLUTIONS *specifically for*

Business

Smeed Communication Services Provides the Best Communication Solutions for Your Business Needs

Since 1946, we've helped Businesses customize communication electronic systems to meet their specific needs.

Today, as one of the region's largest single-source suppliers, we have access to the most advanced electronic and telecommunications equipment and software. With factory-trained technicians and professional sales staff, we have the ability to service the systems for your business.

Smeed Communication Services - Helping Business with Sound Decisions Since 1946.

For over sixty years, Smeed has been designing and installing communication systems best suited for your business. From the latest in phones and networking to security camera systems, Smeed combines the right equipment with the necessary expertise to improve productivity and meet your communication needs.

Smeed specializes in custom designs for new facilities or system upgrades and integration of existing communication networks.

On the reverse, you will find a partial listing of products and services we offer the business marketplace. If you are currently considering developing or updating any of our listed systems, one of our specialists would be happy to consult with you. We can be reached by phone, or visit us on the web.

Smeed Communication Services is an authorized dealer for; NEC, Rauland and Bose.

Connecting Your Business with Tomorrow's Technology

Communication SOLUTIONS *specifically for* Business

Telephone

The telephone system is the basic business communication tool. NEC's digital telephone systems efficiently handle your telephone needs, and seamlessly integrate with your current and future phone network.

Voice Mail

Smeed voice mail systems help you improve your business relationships by making you more responsive to incoming sales, service and client calls. With Unified Messaging, voice mail, fax and e-mail are all handled through a single desktop interface.

Voice Paging

A Smeed-installed, state-of-the-art voice paging system will allow you reach your employees and customers at all times with a clear voice message transmission.

Closed Circuit Security TV

Today, the sophisticated specialization of CCTV equipment enables users to virtually monitor anything or anyone; anytime, anywhere. Smeed CCTV systems enable management to review past events as a means of combating rising liability, theft and property damage.

Music Systems

Smeed designs background music applications for professional offices, restaurants, hospitals and clinics - anywhere that requires a pleasant and comfortable atmosphere.

Audio/Video Media Room Systems

Audio/Video systems with automatic operations can optimize performance while providing convenience and versatility. Smeed engineers link various systems for automatic operation, enhancing efficiency and ease of use.

Network Cabling (Voice, Data, Video)

Smeed installs the latest voice/data/cabling to meet today's demanding requirements. From CAT 6 to Fiber Patch Panels and rack equipment, let Smeed be your one-stop supplier for all your needs.

Access Control

Smeed specializes in facility access systems that allow authorized personnel but restrict others, providing an additional measure of security for your business.
